Good Morning,

This is Patricia with Patricia Shamberger DBA Harmony Transit requesting an extension to comply with the ORS requirements. If it is possible we request an additional 90 days. The process is almost complete, however to ensure that I am in compliance with all regulations and requirements, an extension is necessary. I have been in contact with the ORS inspector and was informed of a few minor issues. There are a few small changes that need to be made in order for us to be in compliance.

Thank You,

Patricia Shamberger DBA
